Design Strategies and Case Studies for a Zero-Waste City. Download the full Guidelines (PDF) The Zero Waste Design Guidelines address the crucial role that design plays in achieving NYC's ambitious goal, outlined in OneNYC, to send zero waste to landfills by 2030. The Guidelines were developed through a collaborative process starting in November 2016.

Design Strategies and Case Studies for a Zero-Waste City

The Disaster Preparedness & Response Knowledge Community meets the second Wednesday of every other month at noon at the AIA Seattle office. AIA Seattle members, allied members, and sponsors are encouraged to join, as well as professionals in the design community.

New Ventilation Guidelines For Health-Care Facilities

The Roxbury E+ project is located in a dense urban neighborhood with a complex history. Despite a superior location, excellent amenities, access to mass transit, beautiful green spaces, and a fine historic building stock of single- and multi-family residences, the neighborhood has been disinvested and underutilized, with many low-income residents and vacant properties.

America Invents Act (AIA) Frequently Asked Questions | USPTO

The pursuit of LEED Platinum triggered a comprehensive Integrated Design Process (IDP), which was pivotal to the resulting design. A Building Charter targeted significant energy use reduction to exceed the 2030 Challenge and achieve a 70% energy-use reduction, a goal that is particularly challenging for an industrial lab building.
