Basic Mathematics Skills Basic mathematics, pre-algebra, geometry, statistics, and algebra skills are what this website will teach you. It is designed for anyone who needs a basic to advanced understanding of mathematics concepts and operations.

### **Basic mathematics**

mathematics items of three general levels of cognitive complexity: basic skills, application, and analysis. A basic skills item can be solved by performing a sequence of basic operations. An application item involves applying sequences of basic operations to novel settings or in complex ways. An analysis item requires students to demonstrate a conceptual understanding of the principles and relationships relevant to particular mathematical operations.
