

book management information system pdf

A management information system (MIS) is an information system used for decision-making, and for the coordination, control, analysis, and visualization of information in an organization; especially in a company.. The study of management information systems examines people and technology in an organizational context. In a corporate setting, the ultimate goal of the use of a management ...

Management information system - Wikipedia

A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.
