DESIGN GUIDE Residential PEX Water Supply Plumbing Systems Second Edition Prepared for Plastics Pipe Institute, Inc (PPI) 105 Decker Court Suite 825

DESIGN GUIDE - Plastics Pipe Institute | Energy Piping Systems

The Gateway to Up-To-Date Information on Integrated 'Whole Building' Design Techniques and Technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.

The Unified Facilities Guide Specifications (UFGS) are published only in electronic format and are intended to be used with SpecsIntact software. The UFGS Master uses the latest CSI MasterFormat, therefore, as of January 2012, the UFGS Working Group decided to discontinue support of MasterFormat 1995.
