URL dispatcher. A clean, elegant URL scheme is an important detail in a high-quality Web application. Django lets you design URLs however you want, with no framework limitations.

### **URL dispatcher | Django documentation | Django**

The route argument should be a string or `gettext_lazy()` (see Translating URL patterns) that contains a URL pattern. The string may contain angle brackets (like `<username>` above) to capture part of the URL and send it as a keyword argument to the view. The angle brackets may include a converter specification (like the `int` part of `<int:section>`) which limits the characters matched and may also ...

History. Django was created in the fall of 2003, when the web programmers at the Lawrence Journal-World newspaper, Adrian Holovaty and Simon Willison, began using Python to build applications. It was released publicly under a BSD license in July 2005. The framework was named after guitarist Django Reinhardt. In June 2008, it was announced that a newly formed Django Software Foundation (DSF ...

Gypsy jazz (also known as gypsy swing or hot club jazz) is a style of jazz music generally accepted to have been started by the Romani guitarist Jean "Django" Reinhardt in and around Paris in the 1930s. Because its origins are in France and Django was from the Manouche Roma clan (although his frequent accompanists, and later solo performers/band leaders the Ferret brothers were not Manouches ...
