

iec standard 60529 nema pdf

The IP Code, International Protection Marking, IEC standard 60529, sometimes interpreted as Ingress Protection Marking, classifies and rates the degree of protection provided against intrusion (body parts such as hands and fingers), dust, accidental contact, and water by mechanical casings and electrical enclosures. It is published by the International Electrotechnical Commission (IEC).

IP Code - Wikipedia

The protection of enclosures against ingress of dirt or against the ingress of water is defined in IEC529 (BSEN60529:1991). Conversely, an enclosure which protects equipment against ingress of particles will also protect a person from potential hazards within that enclosure, and this degree of protection is also defined as a standard.

Guide to NEMA and IEC Enclosure Ratings

The International Electrotechnical Commission is the international standards and conformity assessment body for all fields of electrotechnology. The IEC enables global trade in electronics and electrical goods. Via the IEC worldwide platform, countries are able to participate in global value chains, and companies can develop the standards and conformity assessment systems they need so that ...

International Electrotechnical Commission - Welcome to the IEC

The IEC standard 60529 provides you with a more detailed guide than more generic marketing terms often applied when talking about water resistance.

IP Ratings Explained: The "waterproof" IEC standard 60529

Ingress Protection (IP) and what it means. The IP Code (or International Protection Rating, sometimes also interpreted as Ingress Protection Rating*) consists of the letters IP followed by two digits and an optional letter. As defined in international standard IEC 60529, it classifies the degrees of protection provided against the intrusion of solid objects (including body parts like hands and ...
