Review the CHEM2101 (C21J) course objectives Tutorial questions and some answers as well as some past exam papers are available. A 36 hour laboratory program has been developed for this course that involves preparation of some simple complexes, determination of a magnetic moment, collection of IR and Visible spectra and treatment of Visible spectra using Tanabe-Sugano diagrams.

CHEM2101 (C21J) Inorganic Chemistry

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

Chemical biology - Wikipedia

Analytical chemistry studies and uses instruments and methods used to separate, identify, and quantify matter. In practice, separation, identification or quantification may constitute the entire analysis or be combined with another method.
