Overview. USB was designed to standardize the connection of peripherals like keyboards, pointing devices, digital still and video cameras, printers, portable media players, disk drives and network adapters to personal computers, both to communicate and to supply electric power. It has largely replaced interfaces such as serial ports and parallel ports, and has become commonplace on a wide range ...

The iMac G3 is a series of personal computers designed, manufactured, and sold by Apple Computer, Inc. from 1998 to 2003. Noted for its innovative enclosure via the use of translucent and brightly colored plastics, it was the first consumer-facing Apple product to debut under the recently returned interim CEO Steve Jobs. It was updated over time with new hardware and colors, until being ...
