SOCIAL MEDIA USE BY TWEENS AND TEENS. Engaging in various forms of social media is a routine activity that research has shown to benefit children and adolescents by enhancing communication, social connection, and even technical skills. 1 Social media sites such as Facebook and MySpace offer multiple daily opportunities for connecting with friends, classmates, and people with shared interests.

The Impact of Social Media on Children, Adolescents, and

Mass Lab (pdf) - For the mass lab, students first estimate the mass of various objects, then find the actual mass using triple-beam balances or other scales. To prepare for the activity you will need to organize various items (coins, paper clips, marbles, rocks, large washers/s-hooks, etc.) and triple-beam balances or scales for each group.

Economics (/ ˈ ɛ k ɔː n ɒ m ɪ k s, ɪ ˈ ɛ k ɔː n -/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Ecology (from Greek: ἔκος, "house", or "environment"; -λογία, "study of") is the branch of biology which studies the interactions among organisms and their environment. Objects of study include interactions of organisms with each other and with abiotic components of their environment. Topics of interest include the biodiversity, distribution, biomass, and populations of organisms ...
