Polaris Plate Heat Exchangers: Efficient, Effective. ... Ideal protection for any Plate Heat Exchanger, Bernoulli Filters are self-cleaning even in systems with raw cooling water. This Swedish technology, advanced yet simple, combines high reliability and minimal maintenance. It saves money though the use of untreated cooling water.

## **Home | Polaris Plate Heat Exchangers**

A plate heat exchanger is a type of heat exchanger that uses metal plates to transfer heat between two fluids. This has a major advantage over a conventional heat exchanger in that the fluids are exposed to a much larger surface area because the fluids are spread out over the plates.
