

political economy of rural pdf

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word ...

Political economy - Wikipedia

An economy (from Greek *oikos*, "household" and *nomos* "manage") is an area of the production, distribution, or trade, and consumption of goods and services by different agents. Understood in its broadest sense, 'The economy is defined as a social domain that emphasises the practices, discourses, and material expressions associated with the production, use, and management of ...

Economy - Wikipedia

Today's economy runs on human connection and creativity, both of which favor cities at the detriment of the countryside. But not all urban centers are winners—educated young people flock in particular to inclusive, connected places with plentiful options for work, leisure, and living.
