Not a welding project... but I thought someone would enjoy how I spent my Saturday in the shop. So I have a lot of 1/2" o-rings (112) that need to be installed into a groove that a half inch into the bore. It's not tough to install by hand... but a tool would be nice. So today I made a small spring loaded tool. It works very fast and puts the o-ring into the part without damage every time.
